

MAEVING

Quality Inspector, Maeving

Maeving is a new British electric motorcycle manufacturer. Everything, from the design to the Direct-to-Consumer business model, represents a significant disruption in what is already an exciting emerging sector. Based in Coventry, in the heartland of British motorcycle heritage, our small and dynamic team boasts the brains behind some of the most iconic motorcycles of the last 25 years.

We are seeking a dependable, detail-oriented, and motivated team player to join our growing business. This position offers the opportunity to work closely with the Quality Manager at our Coventry site.

The primary responsibility will be inspecting incoming components from our suppliers to ensure they meet quality standards. Additionally, you will support quality-driven problem-solving initiatives in our assembly processes. Collaboration with the Engineering department on future developments will also be a key aspect of this role, contributing to continuous improvement across the business.

Responsibilities

- Performing goods inwards inspections of components to ensure they meet the required specifications and standards.
- Operating and programming of CMM/Roma Arm for precise measurement and inspection tasks (scanning and probe)
- Using measuring equipment such as vernier callipers, micrometres, gauges. etc.
- Creating inspection reports and maintaining accurate records
- Identifying and reporting non-conformances or quality issues
- Supporting the investigation of quality control issues and defects
- Supporting improvements and corrective action activities
- Maintain inspection equipment and calibration records to ensure accuracy and reliability

Experience

- A good knowledge of inspection measurement equipment and measuring from first principals.
- CMM programming experience - PC-DMIS
- An understanding / working knowledge of ISO 9001 requirements
- The ability to read and interpret engineering drawings and GD&T principles
- Competency in using computer systems for documentation and reporting (e.g., MS Office, quality management software).

Qualities

- Proactive, enthusiastic and organised
- Happy conversing with all levels throughout the business
- Logical and good at problem-solving
- Process driven
- Eager to grow with the company and learn new skills
- Determined to leave the world better than you found it

Benefits

- Stock options
- Discounted Maeving purchase
- Opportunity to fast track your skills, working in a small team where your impact will be felt and recognised.

This will be the best job you ever had.

If you're someone who wants to get on the ground floor of a British EV manufacturer with strong growth prospects, if you're energetic, good with people and willing to work hard, if you're ready to put in the hours and progress quickly, this role is for you. We're a motivated, dynamic, fast-moving team with a flat structure: everyone speaks to everyone, and we all treat each other with respect. We are all driven by the desire to create something great. Come and join us
